Sandwich Filler with Flow-wrap System

The **SL160FW / SL320FW** are the latest addition to the BIG DRUM machinery line. These flexible in-line fillers are perfect for running multiple shaped products. Quick change-overs from one product shape to the next, maximizes up-time and efficiencies.

The **SL160FW / SL320FW** are capable of running round, square and rectangular products / wafer shapes. If you are looking for a high speed, multiple action, flexible and reliable ice cream filler – the **Sandwich Filler with Flow-wrap System** is the SMART CHOICE!

Key Benefits:

- Easy to handle
- Inline flow-wrap
- No hollow bodies
- Heated wire-cut
- 2 full/empty foil rolls per lane
- Easy change-over for different wafer shapes
- State of the art Allen Bradley components & Touch Screen
- All Stainless Steel construction
- All Servo driven movements
